

Step	Instruction	Result
1	Think of a phrase, this could be a well known saying, a quote from your favourite book/play/movie or a lyric from a memorable song.	Once more unto the breach
2	Use the first letter from each word to create a series of letters.	Omutb
3	Exchange any words you can for numbers	1mutb
4	Add one or more special characters (!, ", ?, /, #, & etc.)	1mutb!
5	Add the year	1mutb!2014
6	Associate it with a website (ie. Add "FB" for Facebook or "Amz" for Amazon)	1mutb!2014FB

You could also make it more distinctive, why not take the vowels/ consonants from the website's name?

"1mutb!aao

Or

"1mutb!mzn

Please note

- No approach to security can guarantee 100% safety but by using a method like this, you're giving yourself a fighting chance!
- Some websites may not allow the use of all special characters
